Payment Terms and Credit Policy

Document ID: KS-FIN-002 | Version 2.1 | Effective date: 2026-01-01

1. Payment terms

Payment terms are agreed per customer account, typically Net 30 or Net 45 days from the invoice date. New customers and accounts without an approved credit line pay by prepayment: orders ship once payment is received.

2. Credit limits

Each credit account has a credit limit. Available credit is the credit limit minus open invoices. Web store orders that exceed the available credit cannot be placed directly; they are converted into a quote request and reviewed by the account's sales representative and the credit team.

3. Late payment

Overdue invoices accrue interest of 1% per month. Accounts with invoices more than 30 days overdue are placed on hold until the balance is settled.

4. Invoicing

Invoices are issued per shipment and sent by e-mail. All prices in the web store are net prices excluding VAT.
