# Shipping and Delivery Policy

Document ID: KS-OPS-001 | Version 3.0 | Effective date: 2026-03-01

## 1. Order cut-off and dispatch

Orders placed on the web store before 15:00 CET on a business day are dispatched the same day when all lines are in stock at the shipping warehouse. Orders placed after 15:00 CET are dispatched the next business day. Customers are served from their default warehouse: Rotterdam (NL) or Duisburg (DE).

## 2. Shipping charges

Shipping is free for orders with a net value of EUR 500 or more (excluding VAT). Orders below EUR 500 are charged a flat fee of EUR 25 for delivery to the Netherlands, Belgium and Germany, and EUR 45 for delivery to other EU countries. Pallet deliveries above 500 kg are quoted separately.

## 3. Delivery times

Standard delivery takes 1-2 business days to the Netherlands, Belgium and Germany and 3-5 business days to other EU countries. Delivery times start from dispatch, not from order placement.

## 4. Backorders and partial shipments

Lines that are out of stock are placed on backorder and shipped as soon as stock arrives. The expected date is based on the supplier lead time shown in the web store. Partial shipments of in-stock lines are sent at no extra charge; customers can request a single complete shipment instead.
