Quotes and Volume Pricing Policy

Document ID: KS-SAL-004 | Version 1.0 | Effective date: 2026-04-01

1. Price structure

Customer prices are calculated from the list price, minus the account's price-group discount, minus a volume tier discount: 5% from 10 units and 10% from 50 units of the same product. Contract prices agreed for specific products are fixed net prices and are not combined with volume tiers.

2. When a quote is required

A quote request is required for orders with a net value above EUR 10,000, for discounts beyond the standard tiers, and for orders that exceed the account's available credit.

3. Quote handling

Quote requests are handled by the account's sales representative, who responds within one business day. Approved quotes are valid for 30 days and can be converted into an order in the web store.
